

# **CARE TRAK**

Do you have a family member that wanders? Have or know of a child with special needs such as autism or do you know of an adult with Alzheimer's or dementia?

***Care Trak may be the program for them!***

Care Trak specializes in tracking individuals at risk for wandering, such as adults suffering from Alzheimer's disease or other dementia, or kids with special needs including autism, Down Syndrome, brain injuries or other conditions. If your family member doesn't have one of these diagnoses, but does have a history of wandering, they may still qualify for the program. The locator is a simple bracelet worn by your family member, and emits a radio transmission which is tracked by equipment utilized by trained deputies with the Green County Sheriff's Office. Care Trak is available to all qualified residents of Green County for only a minimal cost.

Contact the Green County Sheriff's Office for more information 608-328-9401
